## CPF Interest Rates from 1 January to 31 March 2025

|                     | Ordinary Account | Special and MediSave Accounts | Retirement Account |
|---------------------|------------------|-------------------------------|--------------------|
| Interest Rate Floor | 2.5%             | 4%                            | 4%                 |

### CPF members aged below 55

- Members earn an extra 1% interest on the first \$60,000 of their combined CPF balances

### CPF members aged 55 and above

- Members earn an extra 2% interest on the first \$30,000 of their combined CPF balances, and an extra 1% on the next \$30,000

## HDB Concessionary Interest Rate from 1 January to 31 March 2025

- Remains unchanged at 2.6%

## Basic Healthcare Sum (BHS) for 2025

- For members below 65 years old, their BHS will be at \$75,500
- For members who turn 65 years old in 2025, their BHS will be \$75,500 and will not change for the rest of their lives

Note: All interest rates are quoted on a per annum basis.

Note: BHS is adjusted annually by the Ministry of Health.

## Interest Rate for CPF Special, MediSave and Retirement Accounts

Savings in the Special, MediSave and Retirement Accounts (SMRA) will earn the floor rate of 4% per annum from 1 January to 31 March 2025, as the SMRA pegged rate has fallen below the floor rate of 4%. This is due to a decrease in the 12-month average yield of 10-year Singapore Government Securities (10YSGS) which the SMRA interest rate is pegged to.

## Interest Rate for CPF Ordinary Account and HDB Concessionary Interest Rate

The Ordinary Account (OA) interest rate will remain unchanged at the floor rate of 2.5% per annum from 1 January to 31 March 2025, as the OA pegged rate remains below the floor rate of 2.5%. Correspondingly, the concessionary interest rate for HDB housing loans, which is pegged at 0.1% above the OA interest rate, will remain unchanged at 2.6% per annum from 1 January to 31 March 2025.

## Extra Interest paid on CPF balances

As part of the Government's efforts to boost the retirement savings for CPF members, CPF members will continue to earn extra interest on their CPF savings. For members aged below 55, they will earn extra 1% interest on the first \$60,000 of their combined balances (capped at \$20,000 for OA). For members aged 55 and above, the Government pays an extra 2% interest on the first \$30,000 of their combined balances (capped at \$20,000 for OA), and an extra 1% on the next \$30,000.

The extra interest earned on the OA balances will go into the member's Special Account or Retirement Account. If a member is aged above 55 and participates in CPF LIFE, the extra interest will still be earned on his or her combined CPF balances, which includes the savings used for CPF LIFE.

### Basic Healthcare Sum for 2025

The Basic Healthcare Sum (BHS) is the estimated savings required for basic subsidised healthcare needs in old age. The BHS is adjusted yearly for members below age 65 to keep pace with the growth in MediSave use. Once members reach age 65, their BHS will be fixed for the rest of their lives.

From 1 January 2025,

1. For members aged below 65, their BHS will be raised from \$71,500 to \$75,500.
2. For members who turn 65 years old in 2025, their BHS will be fixed at \$75,500 and will not change thereafter.

For members aged 66 years and above in 2025, their cohort BHS has already been fixed and will remain unchanged.

Members can make contributions to the MediSave Account (MA) up to the BHS. MediSave contributions in excess of a member's BHS will be automatically transferred to his or her other CPF accounts.

CPF members who have less than the BHS are not required to top up their MA and will still be able to withdraw from their MA to pay for approved medical expenses.
